Key details:	
12-hour overnight scheduled water supply interruption	
Time/Day/Date	From 10.00pm, Friday, 19.7.2019 to 10.00am, Saturday, 20.7.2019.
Reason	Diversion of existing 600mm MS water pipeline away from a new drainage works site.
No. of affected consumers	About 6,900 people at Jalan Kulim, SPT, and nearby areas.

PENANG, Monday (15.7.2019): Water supply services for about 6,900 people at Jalan Kulim, Seberang Prai Tengah (SPT), and nearby areas will be interrupted for 12 hours overnight, from 10.00pm on 19.7.2019.

Perbadanan Bekalan Air Pulau Pinang Sdn Bhd (PBAPP) has to temporarily shut down an existing 600mm MS (mild steel) water pipeline for 12 hours.

This pipeline shutdown will cause a scheduled water supply interruption. It is required to facilitate pipe diversion works.

Property construction activities are being carried out in Lots 632, 633, 634, 635, 672, 673 and 674, Section 6, Jalan Kulim. The existing 600mm water pipeline must be diverted safely away from a new drainage works site to safeguard the water supply to thousands of consumers in the area.

This is a preventive measure to avoid mishaps such as a burst pipe caused by digging works that could lead to unscheduled water supply interruptions.

To minimise inconveniences to affected water consumers, PBAPP has scheduled for the pipe diversion works to be carried out on an overnight basis.
