

12L-16L
per minute

That is the amount of water wasted, every time a tap is left running in Penang. Please **SHUT THE TAP** until the moment you need to use the water.

PENANG 2030 VISION

Penang needs sufficient water to become a "Family-focused Green and Smart State that Inspires the Nation."

278 l/c/d
(litres/capita/day)

Penang's per capita domestic water consumption was the highest in Malaysia in 2018.

The national average (2017) was 201 l/c/d.
The national target is 180 l/c/d.

Please use less water at home.

Water Saving TIPS

SAVE WATER,
Use it Wisely.

1

Don't use a hose to wash a car or motorcycle. Use a bucket, a sponge and wet cloths instead.

2

Don't wash your vehicle every day. Wash it only when it is really necessary.

3

Repair all leaking taps, pipes, faucets and toilet systems immediately.

4

Don't use a hose to clean your floor. Use a mop and a bucket instead.

5

Don't use a hose to clean your front yard. Use a broom to sweep away the leaves and dirt.

6

Don't use a hose to water your garden or plants. Use a watering can instead.

7

Don't leave the tap running when washing vegetables, fruits or dishes. Fill up the basin to wash. Turn on the tap only to rinse.

8

Don't leave the tap running when brushing your teeth, applying soap or shampoo. Turn on the tap only when you need to rinse.

9

Install a dual flush toilet system. A half flush is usually enough.

10

Install a water-friendly washing machine. Use the machine only when you have a full load to wash.
